

Hutchinson Manufacturing, LLC. is a custom, metal fabrication company serving customers in many different industries, including nuclear, oil, energy, industrial and defense.

Even more, our business is GROWING! We are looking forward to doubling the business in the next 2-3 years and therefore, building a team of skilled, experienced and high-powered individuals. Come join us on this journey to excellence, growth and profitability!

In particular, we are seeking an experienced **working lead, skilled in mechanical assembly**. This person will have a strong integrity and take pride in their work. If you like a challenge, getting your hands dirty, showing up to work on time and contributing to meaningful projects, let us know.

We offer competitive wages, health, dental and vision benefits for employees & family members, 401k match, paid time off, a safe work environment, profit sharing opportunities and more!

What do we ask in return? Consistent and reliable attendance, productivity, quality work, teamwork, positive attitude and a strong desire to win!

Essential Duties & Responsibilities:

- Reads, interprets and follows blueprints, specifications and other instructions to build and assemble parts and equipment accurately and timely.
- Use air powered tools and hand tools to complete assembly to specifications on blue print or work order.
- Operate overhead hoist, jib hoist, crane or forklift to move assembly units around the assembly area.
- Fit together parts and unit pieces, and prepare for shipment.
- Enter job information accurately and timely into the computer system.
- Understand and assist in evaluating production schedules to estimate work hour requirements.
- Analyzes and resolves work problems and/or assists workers in solving work problems.
- Initiates or suggests plans to motivate workers to achieve work goals.
- Work in a safe manner obeying all safety rules.
- Other duties may be assigned.

Ideal candidates will have:

- High school diploma or general education degree (GED); 6-12 months large mechanical assembly experience preferred or an equivalent combination of education and experience.
- Ability to work under direct supervision.
- Ability to operate fork lift truck, crane and hoists.
- Ability to discern which tools to utilize effectively for given assembly project.
- Experience with large frame assemblies.
- Knowledge of mechanical equipment assembly, installation and repair.
- Knowledge of using measurement instruments.
- Ability to interpret instructions, specifications and blueprints.
- Excellent communication and interaction skills with supervisor and co-workers.
